

The added value to Finland from the international cooperation

Marja-Leena Järvinen

SAFIR2014 INTERIM SEMINAR

March 21th – 22th 2013

Hanasaari

Nuclear safety is international

Basic elements of enabling good results

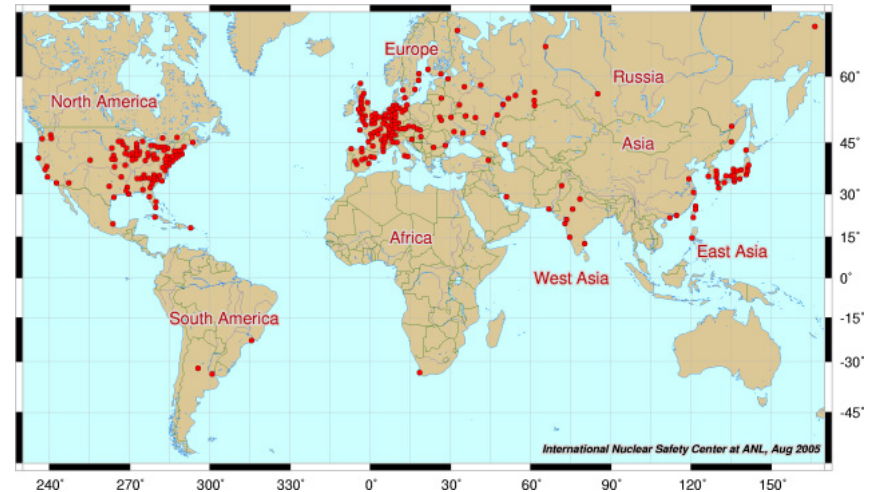

- talented team and other resources
- vision
- internationally competent

Sharing of knowledge increases the available knowledge

- lessons learned
- volume of research (Finland, the total international volume)
- world's best nuclear expertise
- cost-effective

International aspects

- ✓ safety goals and requirements, national aspects
- ✓ owners
- ✓ vendors, markets
- ✓ impact of accidents

Thank you!
